

Canyon Country & National Parks  
14 Days/13 Nights  
September 7 - 20, 2019  
Saturday - Friday

Celebrate our country as we see some of the nature’s best scenery. From Yellowstone National Park, the first and oldest national park in the world, with more geysers and hot springs than the rest of the world combined to the majestic Teton Range. You will experience the captivating natural beauty that has drawn visitors for generations. Let **Judy’s Leisure Tours** take you to these and other well known landmarks.

**1** We will **pickup along I94** as we travel to **Deadwood**, South Dakota where you will be on your own this evening to have dinner, do a little browsing, or try your hand at lady luck in one of their casinos.

**2** Our travel today takes us through Wyoming and Colorado to the stunning **Garden of the Gods**, a 1,300 acre park where flora and fauna reflect the rich diversity of the terrain, and red sandstone formations tell a unique geological story. We overnight in **Colorado Springs**.

**3** This morning you step aboard the **Royal Gorge Route Railroad**, known as the “Scenic Line of the World.” The 12 mile route follows the most famous portion of the old Denver and Rio Grande Western train line. We ride through the “Grand Canyon of the Arkansas” on an unforgettable journey along the tumbling Arkansas River, over 1,000 feet below the rocky granite cliffs of the famed Royal Gorge. Our next stop is **Black Canyon of the Gunnison National**

**Park**. Located in Colorado, it is a beautiful and dramatic park, where the Gunnison River rushes through the narrow canyon gorge. Tonight we enjoy **dinner** and overnight in **Montrose, CO**.

**4** This morning we drive to the small mining town of **Silverton**, a national historic landmark. Hidden high in the San Juan Mountains, this town offers spectacular scenery, Victorian charm. Then it’s “full steam ahead” today as we board the **Durango & Silverton Narrow Gauge Railroad**. Voted one of the “Top Ten Most Exciting Train Journeys in the World” by the Society of American Travel Writers. This route winds through the spectacular and breathtaking canyons in the remote wilderness of the two-million acre **San Juan National Forest**. The locomotives used today remain 100% coal-fired, steam-operated and are maintained in their original condition. We overnight in **Durango**.

**5** Today we visit the land of the ancient Pueblo Indians in **Mesa Verde National Park**. The fascinating **cliff dwellings** and culture of these people provide us with a look into a society that existed approximately 1400 years ago. Building elaborate stone communities, the Pueblos developed their own society that existed for some 700 years, before disappearing. Archeologists called them Anasazi, from a Navajo word sometimes translating as “the ancient ones.” We find our lodging in **Bluff, Utah**.

**6** This morning we will explore **Monument Valley** in a **four-wheel-drive vehicle** with a Navajo Indian guide. We will be delighted with sights of pictographs and petroglyphs, natural arches and windows, monoliths and pueblo-style cliffs dwellings built by Anasazi

Indians about A.D. 1250. This afternoon we board our vessel for a 2 ½ hr **cruise** on the sky-blue **Lake Powell, Canyon Adventure Boat tour**, will take you cruising through two famous Lake Powell Canyons - Antelope and Navajo Canyons. (Do to low water levels we cannot do the cruise to Rainbow Bridge) We overnight at the **Lake Powell Resort**.

**7** Prepare for a visual treat today at the **North Rim of Grand Canyon National Park**. World-renowned for its remarkable beauty and diverse range of rock layers, the Grand Canyon offers visitors an unmatched display of scenic wonders and breathtaking views. We overnight in **Kanab, UT**.

**8** Today features awe-inspiring **Zion National Park**, where the Virgin River has cut a dramatic rugged gorge through multi-hued sandstone, shale and limestone. We’ll look up at the towering rock walls surrounding us on all sides as we tour this incredible natural wonder. Zion is very likely one of the most awe-inspiring national parks in the world. We continue on to **Bryce Canyon National Park**, truly one of the most spectacular scenic wonders of the world. The formations within Bryce Canyon National Park, called Hoodoos, are the creation of wind and water erosion over eons of time. Iron Oxidizing within the rock causes the natural orange and red hues that color these formations. We overnight at **Ruby’s Inn in Bryce Canyon**.

**9** This morning we travel along Utah’s incredible Highway 12 Scenic Byway as we wind our way through spectacular **Grand Staircase-Escalante National Monument**. This

is one of the most scenic drives in the country. Our drive brings us to impressive **Capital Reef National Park**, where white sandstone “domes” cap massive reef-like cliffs. We continue to **Moab** where we find our lodging. Imagine yourself being whisked down the legendary mighty **Colorado River**. You are surrounded by red sandstone cliffs on either side of the river. The sun hiding behind the canyon walls, offering cooler temperatures. Along the way you’ll discover an Indian grainery, petroglyphs, arches and beautiful scenery. These boats are designed for people who want to tour the river on calm water, not get wet, remain comfortable, but see all there is to see of **Canyon lands National Park** from the perspective of the river. Our guide will tell tales of the area as we explore the river passages. We also enjoy a tasty **Dutch Oven dinner** and have the beauty of sunset for dessert.

**10** **Arches National Park** contains the largest concentration of stone arches in the world. This National Park is a red, arid desert, punctuated with oddly eroded sandstone forms such as fins, pinnacles, spires, balanced rocks, and arches. The 73,000-acre region has over 2,000 of these “miracles of nature.” We overnight in **Coalville, UT**.

**11** Few places on this earth can honestly be described as “awe-inspiring or breathtaking.” The Teton Range is worthy of that kind of description, towering more than a mile above the valley of **Jackson Hole**. Twelve Teton peaks reach high enough to support a dozen mountain glaciers. We arrive in **Jackson Hole** with the afternoon to explore Jackson’s town square accented by elk-antler arches and learn about area history at museums.

**12** We travel through **Grand Teton National Park**, a fault-block mountain formation, as opposed to the volcanic action in Yellowstone. Next we visit **Yellowstone National Park**, the world’s first and oldest national park, featuring erupting geysers like Old Faithful, majestic waterfalls, petrified forests and roaming bison, elk and other wildlife. Our route takes us through the **Wapiti Valley**, along the north-fork of the Shoshone River to **Cody, WY**. President Teddy Roosevelt termed this as the “**most scenic 50 miles in the world.**” We enjoy the **Cody Cattle Company Dinner and Show** this evening.

**13** Today we cross the scenic **Big Horn National Forest**, another of Wyoming jewels, as we make our way to the Wild West cowtown of **Medora** where we will enjoy a **farewell dinner** together.

**14** We continue our journey home with wonderful memories of all of the natural wonders that we have seen. We look forward to our next excursion with **Judy’s Leisure Tours**.

A \$200 deposit will reserve your seat.
